

CURRICULUM VITAE

Full Name	Steven Peter Creech	Nationality	British
Title	Director	Date of Birth	22 nd April 1964
Company	pelagikos pvt ltd	Contact	Mob: +94 (0)77 35 83 135
Address	16 Welikadawatte Road Rajagiriya 10107, Sri Lanka		Office: +94 (0)11 28 61 013
			Email: steve@pelagikos.lk

KEY AREAS OF EXPERTISE

Sustainable Fisheries / Marine Resource Management / Aquaculture: Design, development, implementation, performance monitoring and evaluation of fishery improvement projects for sustainable fisheries; coastal and lagoon fisheries development, co-management & conservation; community based eco-tourism; mangrove restoration and conservation; small-scale shrimp farming and freshwater aquaculture (carp ranching and tilapia farming).

Evaluation: Design, planning and implementation of formative, summative and impact evaluations including the analysis of administrative and secondary data; the collection and analysis of qualitative and quantitative primary data using participatory and empirical research methods; evaluation report writing, presentation of evaluation findings and facilitation of stakeholder meetings and evaluation workshops.

Strategic Planning & Project Design: Analysis of administrative and secondary data; the collection and analysis of quantitative and qualitative primary data using participatory and empirical research methods; presentation and facilitation techniques for strategic / project planning workshops and stakeholder meetings. The use of the Logical Framework Approach and Results Based Management planning tools to identify, design and development project concepts and proposals for coastal resource management, eco-tourism, solid waste management, climate change, enterprise development, conflict / post tsunami relief, rehabilitation and reconstruction, human rights, aquaculture, agriculture, trauma counselling, water and sanitation and processing tea. Training programmes on the theory and practice of using the Logical Framework Approach and Results Based Management tools for project design and concept / proposal writing.

Project Management, Monitoring and Reporting: management of programmes and project operations for livelihoods based development assistance, short term emergency relief, relief, rehabilitation and reconstruction assistance in both conflict-affected and non-conflicted affected environments. Programme and project implementation monitoring and progress reporting, administrative and financial management.

Employers: multilateral and bilateral development agencies (e.g., GTZ, ILO, FAO UN, ADB and GIZ), international and national consultancy companies, international and national non-government organisations, fishermen's cooperative societies and the private sector (seafood industry).

EXPERIENCE / QUALIFICATIONS

Overseas Experience: Thirty (30) Years (*since 1990*)

Countries: (*alphabetical*) Bangladesh, India, Indonesia, Sri Lanka and The Maldives

Languages: **English** (Native speaker); Basic spoken *Sinhala, Bengali, Bhasa Indonesian*

1986 – 1990 **Doctorate of Philosophy (PhD)** University of Wales, College of Cardiff
Ecology and taxonomy of an estuarine fish

1983 – 1986 **Bachelor of Science (BSc Hons)** Plymouth Polytechnic, Plymouth, UK
Biological Sciences: Marine Biology, Freshwater Pollution Ecology and Conservation

CURRENT ASSIGNMENT(S)

No. 59	Sri Lanka	Consultant – Marine Zone of Influence
2019 Dec	4 months	Deutsche Gesellschaft fur Internationale Zusammenarbeit (GIZ) GmbH
2020 Mar		<i>Supporting Wilpattu National Park and influence zone management</i>

As the lead consultant for the marine zone of influence during the preparatory phase of the Wilpattu National Park (WNP) and its zones of influence management plan's (2019 – 2024) implementation I am responsible for the following actions

- 1) *Review problems and inter-linkages of the marine WNP influence zone*
- 2) *Stakeholder analysis and identification of target groups in the marine protected area in WNP marine influence zone*
- 3) *Assess eco-tourism opportunities and the legal framework for the WNP marine influence zone*
- 4) *Capacity building in fisheries and other livelihood practices*
- 5) *Review and assess the preliminary findings and recommendations of the existing projects and management plans*
- 6) *Suggest implementing measures to address problems in the WNP marine influence zone*
- 7) *Propose a monitoring framework for the WNP marine influence zone project field of action*

The marine zone of influence includes the management of dolphin and whale watching off the coast of Kalpitiya; tourism and fisheries in the Bar Reef Marine Sanctuary; fisheries and tourism in the Wilpattu Ramsar Wetland Cluster (*i.e.* the Puttalam estuary) and fisheries in the proposed dugong and seagrass sanctuary in the Gulf of Mannar. Actions 1 – 7 have already been completed. The Final Report will be submitted on or before the deadline of 31st March 2020.

No. 58	Sri Lanka	Consultant - Sustainable Fisheries / Sustainably Certified Seafood
2017 July	33 months	Seafood Exporters' Association of Sri Lanka (SEASL)
2020 Mar		<i>Sri Lankan longline fishery improvement project (FIP)</i>

The Sri Lankan longline FIP was launched by the SEASL at the Seafood Global Expo in Brussels in April 2017. In May the SEASL signed a Memorandum of Understanding (MoU) with the Ministry of Fisheries and Aquatic Resources to improve the biological and ecological status of Sri Lanka's longline tuna and billfish fisheries. The MoU also bound the parties to develop and implement national and international fishery specific management measures to improve and maintain the biological and ecological status of each fishery. An internal assessment of the status of the fishery against the Marine Stewardship Council's (MSC) Fishery Standard was conducted with officers and staff of the MFAR, the Department of Fisheries and Aquatic Resources (DFAR), the National Aquatic Resources, Research and Development Agency and the Ceylon Fisheries Harbour Corporation in September. The outcome of the internal assessment provided members of the FIP with an indication of current status of the fisheries and identified actions to be implemented to improve the fisheries towards becoming 'sustainably managed' fisheries by December 2021.

EMPLOYMENT HISTORY

(1990 - 2017)

- | | | |
|---|------------------------------|---|
| No. 56
2015 July
2015 Dec. | Sri Lanka
6 months | Cooperative Development Adviser
International Labour Organisation of the United Nations (ILO UN)
<i>Local Empowerment Through Economic Development Project</i> |
| <p>Technical assistance was provided to the Poonakary Fishermen's Cooperative Societies Union to enhance the management and enterprise development capacity of 11 fishermen's cooperatives in the Poonakary area. An assessment of the management capacity and assets of the fifteen FCS was completed. Thereafter management assistance was provided through the Provincial Department of Cooperative Development and provisions were made to employ clerks in all societies for six months to achieve a level of 'functional fishermen's cooperatives'.</p> <p>Subsequently further technical assistance and individual grants of up to US\$1,500.00 were made to six fishermen's cooperative to commence fisheries related micro enterprises i.e., buying and selling members' catch, fuel stations and dry fish processing.</p> | | |
| No. 55
2014 Oct
2015 May. | Sri Lanka
8 months | Fisheries Adviser
Poonaryn Fishermen's Cooperative Society Union Ltd
<i>Sri Lankan Blue Swimming Crab Fishery Improvement Project</i> |
| <p>Technical assistance was provided to the Pooneryn FCSU to enhance northern fishing communities' engagement in the Sri Lankan Blue Swimming Crab Fishery Improvement Project, in partnership with the International Labour Organisation's Local Empowerment through economic development (LEED) project.</p> <p>Key tasks included the design, implementation and analysis of a study of gillnet selectivity for bottom-set crab gillnets (ongoing) and a length based spawning potential assessment (completed). Guidance is also being given to facilitate information dissemination and consultation among fishing community organisations in the districts of Kilinochchi, Jaffna and Mannar and facilitate these organisations' participation in SLBSC FIP Steering Committee Meeting in March 2015 (completed).</p> | | |
| No. 53
2014 Oct
2015 Mar. | Sri Lanka
36 days | Consultant - Consultant - Sustainable Fisheries / Sustainably Certified Seafood
Sustainable Fisheries Partnership
<i>Sri Lankan Tuna Fishery Improvement Project</i> |
| <p>The principal task of the consultant to the SFP's Sri Lankan tuna fishery improvement project (SLT FIP) was to continue the ongoing FIP work by progressing and implementing agreed FIP work plans. In addition the consultant was responsible for build relationships with regional industry stakeholders and groups; relevant management and regulatory authorities' scientific institutions and local NGOs that work on fishery issues. The consultant worked closely senior officers from the National Aquatic Resources Research and Development Agency and the Ministry / Department of Fisheries and Aquatic Resources.</p> | | |
